

GRIPPER

Multi-sport performance flooring

sport

www.geoplastsport.it

GRIPPER® is the sport flooring tile in high-strength polypropylene, ideal for the creation of permanent or temporary sport surfaces, immediately available for use. Its versatility makes it suitable for virtually any sport or activity.

APPLICATIONS

SOCCER

GRIPPER® is ideal for outdoor and indoor use. Games such as SOCCER, FUTSAL, BASKETBALL or TENNIS demand excellent traction, low skin abrasion and good shock absorption in order to maximise performance and safety. The modularity and the wide colour range of GRIPPER® make the creation of a sport court extremely easy: the different zones of the court can be set in different colours according to requirements.

BASKETBALL

DANCE

VOLLEY

TENNIS

A GRIPPER® flooring will carry sport gear, gym equipment or furniture without fear of damage. Its surface is comfortable and safe to walk on even barefoot. The flooring is fully washable, is bacteria- and microorganism-resistant, thus ensuring the highest standards of hygiene and cleanliness.

HOCKEY

LEISURE

GRIPPER® is an extremely practical modular flooring that fits any requirement, size or colour. To ensure a perfect match it comes in two sizes:

- 25 x 25 cm for all metric-size play fields;
- 2" x 12" (20.5 x 30.5 cm) for all sport courts in imperial sizes, such as tennis.

Laying of a single GRIPPER® element

Pre-assembled mat

ADVANTAGES

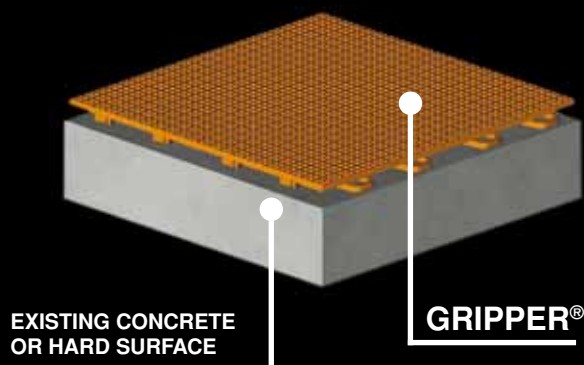

- **The Snap-Fit connection** makes the flooring fast and easy to lay, ensuring great stability.
- Suitable for permanent or temporary sport surfaces.
- **Great drainage** in case of rain.
- **UV-resistant.**
- **Safe game:** reduces skin abrasion and impact.
- The great colour range available makes it easy **to create banners, signs or patterns.**
- The flooring can be laid **on any compact and level surface.**
- **The engineered structure of GRIPPER® ensures a perfect response,** making sure that the ball bounces reliably and the surface “feels right”, never influencing the game.

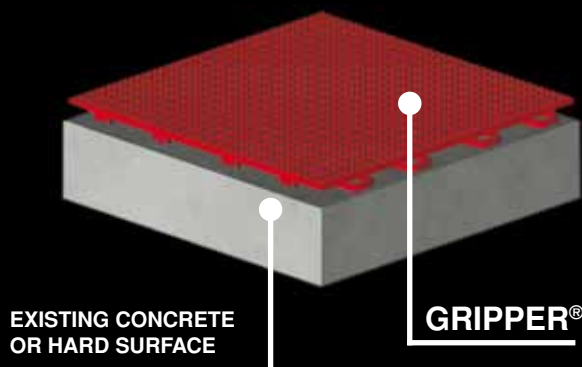

Gripper Outdoor

GRIPPER® OUTDOOR is the fast and practical multipurpose flooring for any outdoor sport or activity. The permeable surface ensures perfect drainage in case of rain, is easy to keep clean and provides great safety for any kind of sport.

Gripper Outdoor 12"

GRIPPER® OUTDOOR 12" is the ideal flooring for tennis courts. Its module of 12" x 12" (one square foot) ensures that a regulation-size court is created in a fast and precise manner. Different colours can be used to mark the doubles alleys.

TECHNICAL SPECIFICATION 25 x 25 cm

SIZE	25 x 25 x H1 cm (16 pcs./m ²)
WEIGHT	4 kg/m ²
MATERIAL	UV-stable PP
COEFF. OF THERMAL EXPANSION	0.15 mm/m/°C
SURFACE	Permeable
CONNECTION	Snap-Fit
PUNCH RESISTANCE	444 kN/m ²
BENDING RESISTANCE	410 N

PACKAGE SIZE 80 X 120 X H150 cm - 112 m²

TECHNICAL SPECIFICATION 12 x 12 inch.

SIZE	12" X 12" X H1.2" (10,75 pcs./m ²) (30.5 X 30.5 X H1.2 cm)
WEIGHT	4.5 kg/m ²
MATERIAL	UV-stable PP
COEFF. OF THERMAL EXPANSION	0.15 mm/m/°C
SURFACE	Permeable
CONNECTION	Snap-Fit
PUNCH RESISTANCE	530 kN/m ²
BENDING RESISTANCE	490 kN/m ²

PACKAGE SIZE 100 X 120 X H160 cm - 140 m²

AVAILABLE COLOURS

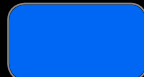

Violet
(RAL 4008)

Royal Blue
(RAL 5010)

Light Blue
(RAL 5012)

Leaf Green
(RAL 6002)

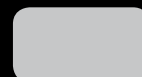

Orange
(RAL 2008)

Coral Red
(RAL 3018)

Metal Grey
(RAL 9022)

Black
(RAL 9011)

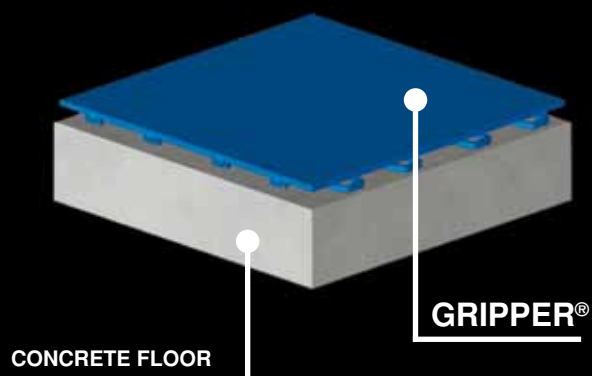

Customised colours can be produced on demand

Gripper Indoor

GRIPPER® INDOOR is the flooring developed for permanent indoor sport flooring. It has a smooth surface and the tight and precise coupling of the elements produce a plane and seamless floor. **GRIPPER®** is made of high quality polypropylene that assures a superior traction during the activity.

TECHNICAL SPECIFICATION

SIZE	25 X 25X H1 cm (16 pcs./m ²)
WEIGHT	5 kg/m ²
MATERIAL	UV-stable PP
COEFF. OF THERMAL EXPANSION	0.15 mm/m/°C
SURFACE	Permeable
CONNECTION	Snap-Fit
PUNCH RESISTANCE	600 kN/m ²
BENDING RESISTANCE	550 N
PACKAGE SIZE	80 X 120 X H150 cm - 112 m ²

CLEANING

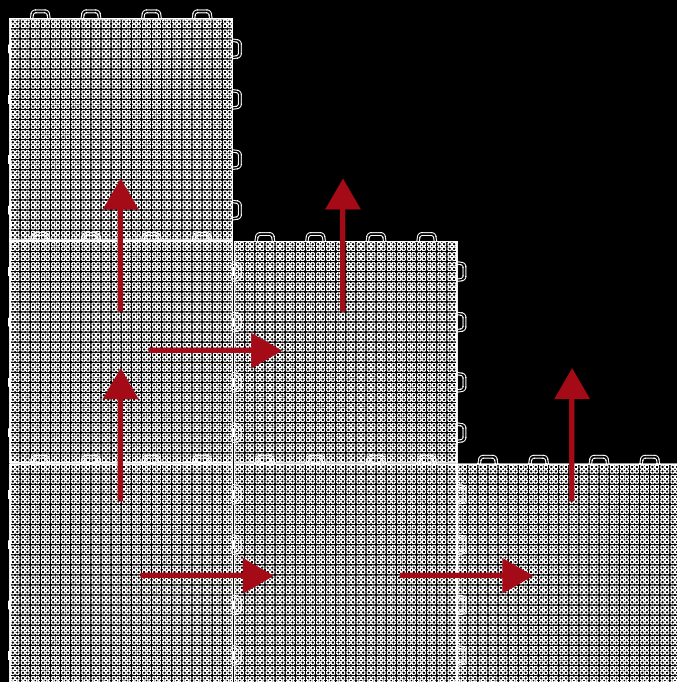

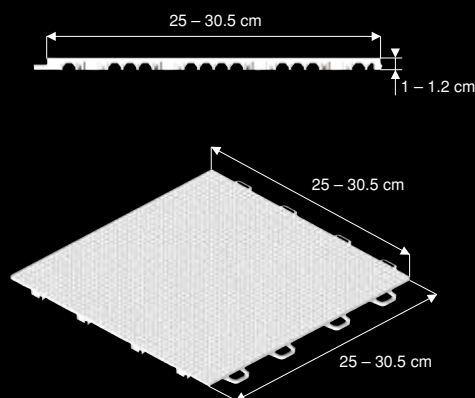

GRIPPER® is kept clean just like any level sport flooring: water, non aggressive detergents, vacuum cleaners, brushes and so on.

HOW TO INSTALL

The **GRIPPER**® sport flooring is installed preferably on a level rigid surface such as concrete. In the case of a temporary sport court other kinds of surface such as asphalt, stone, resin or else are also acceptable, as long as they are level and compact. The flooring is best assembled from left to right and forwards. In the case of outdoor use leave an empty space of about an inch between the edge of the flooring and any object, in order to compensate for thermal expansion.

TEMPORARY EVENTS

GRIPPER® flooring is ideal for temporary events. Thanks to its Snap-Fit connection it is very fast to assemble and remove. The elements are loaded in pre-assembled mats onto pallets and easily transported and stored.

EXECUTION OF LINES

Lines can be easily created on a **GRIPPER**® flooring, either painted or using an adhesive tape (please check which are the approved tapes for the sport you practice). It is advised to clean the surface accurately before creating the lines; in case of temporary events it is advised to use an adhesive tape that doesn't leave any trace after removal.
